## EDUCATION

**University of Toronto | BBA Co-Op (Finance Specialist, Minor in Economics)** *Expected Graduation 2027*

- Cumulative GPA 3.78/ 4.00 | Dean's List 2023-2024, 2024-2025, 2025-2026
- Relevant programs: Leadership Fellows Program (LFP), Capital Market Prep Program (CMPP)
- CFA Level I Candidate (Feb 2027)

## WORK EXPERIENCE

**Royal Bank of Canada – RBC | FP&A – Performance Management for Auto and HEF** *January 2026 – April 2026*

- Automated recurring reporting models in Excel, reducing manual prep time across all 12 monthly performance reports
- Collaborated with the strategy team as the primary financial support; produced financial data visualizations for decks
- Assisted with building regression models, incorporating macro features from multiple economic indicators
- Spearheaded the early-phase design of a centralized financial reporting framework for Commercial Banking, consolidating diverse data sources to improve consistency, visualization, and analytical storytelling

**Odysseus Capital Asia Limited | Investment Banking Intern** *May 2025 – August 2025*

- Executed buy-side due diligence and pre-acquisition valuation for an LP stake in a US$2.5B fund, building the fee-structure model and NAV sensitivity analysis underpinning the investment recommendation
- Advised a Series C fundraising by preparing an integrated investor deck and presenting key materials to the firm's CEO
- Screened 30+ pre-IPO stocks, hedge funds, and crypto funds against comparables and precedent transactions

**Allay LLP | Accounting Practice Intern** *January 2025 – May 2025*

- Prepared financial statements through processes of bookkeeping, file management, and reconciliation through CaseWare
- Managed end-to-end preparation and submission for 25+ T2 and T1 tax returns, ensuring compliance and due diligence

**PricewaterhouseCoopers (PwC) | Assurance Intern** *May 2024 – June 2024*

- Performed financial statements auditing and testing procedure for 10+ subsidiaries, strengthening expertise in GAAP/ IFRS compliance procedure and identifying $100K in financial discrepancies
- Analyzed financial data across reconciliation models and collaborated with seniors on due diligence processes

## LEADERSHIP AND EXTRA CURRICULARS

**The Management Consulting Group (MCG) | VP of Finance** *June 2025 – April 2026*

- Oversaw budgeting, financial planning, and reporting while developing 3 internal tracking systems to support budget allocation across 5 club initiatives
- Worked with cross-function teams to boost annual funding and coordinated the planning and execution of all events

**University of Toronto Hong Kong Student Club | Public Relations Director** *September 2023 – April 2025*

- Engaged with sponsors and organizers through door-to-door digital outreach, secured partnership with 20+ sponsors
- Spearheaded a team of 7 to execute cross-club cultural events, driving 150+ attendee participation

## CASE COMPETITIONS

- STRIVE Junior Tier Case Competition 2024 Champion – led team against 200+ Ontario Students and won top prize
- Finalists at the Rotman Commerce FinTech Summit Case Competition 2025 (in partnership with Sage Group PLC)
- Achieved 3rd place in Merger and Acquisition case competition held by Investment Society at University of Toronto

## SKILLS AND LANGUAGES

- **Modeling & Valuation:** DCF, comparables, precedent transactions, three-statement modeling, sensitivity analysis
- **Technical:** Excel, VBA, Python, R, Power BI, Tableau, TM1/IBM Planning Analytics, GitHub, Vercel
- **Platforms:** Bloomberg Terminal, FactSet, CaseWare, TradingView, Meltwater, CCASS
- **Languages:** English (native), Cantonese (native), Mandarin (fluent), Spanish (beginner)

## QUANTITATIVE & TECHNICAL

- Authored a solo research paper, "Time in Market: A Skewed Perspective". Published on SSRN
- Built and back tested 30+ systematic intraday futures strategies (MNQ) in Python on QuantConnect based on 5 key criteria
- Built a sentiment-aggregation equity platform ingesting 20+ news, filing, and social feeds into a weighted composite score
- Automated a daily scanner screening US large-caps for gap-ups, delivering LLM-researched catalyst reports pre-market
